

Confirmation of commissioning of a SSEG unit connected in parallel with the public distribution network – in accordance with Engineering Recommendation G83/1. One Commissioning Pro-forma per installation is to be submitted to the DNO.

<b>Site Details</b>	
Property address (inc. post code)	
Telephone number	
Customer supply number (MPAN)	
Distribution Network Operator (DNO)	
<b>Contact Details</b>	
SSEG owner	
Contact person	
Contact telephone number	
<b>SSEG Details</b>	
Manufacturer and model type	
Serial number of SSEG	
Serial number / version numbers of software (where appropriate)	
SSEG rating (A) and power factor (under normal running conditions)	
Maximum peak short circuit current (A)	
Type of prime mover and fuel source	
Location of SSEG within the installation	
Location of multi pole isolator	

<b>Installer Details</b>	
Installer	
Accreditation/Qualification:	
Address (incl post code)	
Contact person	
Telephone Number	
Fax Number	
E-mail address	
<b>Information to be Enclosed</b>	
Final copy of circuit diagram	
SSEG Test Report (Appendix 4) or web address if appropriate (not necessary if already provided e.g. under a Stage 2 connection)	
Computer print out (where possible) or other schedule of protection settings	
Electricity meter(s) make and model:	

<b>Declaration - to be completed by Installer</b>		
The SSEG installation complies with the relevant sections of Engineering Recommendation G83/1.		
Protection settings have been set to comply with Engineering Recommendation G83/1.		
The protection settings are protected from alteration except by prior written agreement between the DNO and the Customer or his agent.		
Safety labels have been fitted in accordance with section 6.1 of Engineering Recommendation G83/1.		
The SSEG installation complies with the relevant sections of BS7671 and an installation test certificate is attached.
